THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U. S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

25X1X

1. In February 1952, Coswig received orders to begin increased production of oleum (fuming sulfuric acid) with about 24 percent free SO₃. Oleum was to make up about 74 percent of total Coswig production, and about 3,000 metric tons of oleum were to be produced per month.
- 25X1X 2. [] most of the 3,000 tons of oleum will be delivered to the VVB Organa Bergbau-, Sprengstoff- und Zündmittelwerk Schönebeck/Elbe, VEB, (formerly Lignose Sprengstoffwerke GmbH), which is a powder factory and which received 400 to 500 metric tons of oleum per month up to February 1952. [] this increased amount of oleum would enable the Bergbau-, Sprengstoff- und Zündmittelwerk, Schönebeck/Elbe, to produce about 1,500 metric tons of trinitrotoluene and 1,000 metric tons of nitrocellulose.
- 25X1X

- 25X1A 1. [] Comment: The Coswig plant is probably the VVB Alcid Schwefelsäure- und Superphosphatwerk, VEB, Coswig (formerly Fertilia, Chemische Werke A.G.).
